Facing the growing demands regarding Social Responsibility, organizations of all sizes and from all sectors engage in measurement and valuation of their extra-financial performances, through reporting standards recognized worldwide.

The “**Global Reporting Initiative Certified Training Course**” is the official and licensed training program of the Global Reporting Initiative dedicated to CSR professionals, organized internally or as an intra-corporate training, with the support of the National Institute for Sustainable Development and CSR in Luxembourg (*Institut National de Développement Durable et RSE, INDR*). More than 350 participants have been trained by Forethix in France, Morocco and Luxembourg.

LEARNING GOALS

ONLINE TRAINING BY EXPERTS FOR EXPERTS

At the end of the course, the participant will be able to understand, master and implement:

- Regulatory and normative requirements: UNGC, SDG, ISO 26000, AA1000, CDP, Integrated Reporting;
- The fundamental principles of GRI Standards and their compliance;
- The implementation stages of monitoring and reporting process;
- The relevance analysis and materiality assessment process and;
- Compliance and verification criteria of the CSR reporting process.

The participant who attended the 4-session set will receive the Global Reporting Initiative training certificate at the end of the course.

ASSETS OF THE PROGRAM

- **Official and internationally recognized training:** This training is certified and licensed with the Global Reporting Initiative, Standards recognized worldwide in terms of extra-financial reporting. The speakers have all been certified trainers of Global Reporting Initiative for several years, accumulating field expertise and in-depth knowledge of the Standards.
- **Sharing of field expertise:** The trainers will share, at the end of each module in the form of questions/answers, their feedback based on more than 10 years of field experience with organizations of all sizes and from all sectors, in the implementation of the reporting in accordance with GRI Standards.
- **Pragmatic educational approach:** The participant can appropriate the subject thanks to this program, combining theory and practice, case studies and question/answer session with CSR expert trainers certified by GRI as well as with a member of the GRI team who will speak live during the training for a question/answer session.
- **Opportunity to interact directly with GRI:** During the webinar sessions, GRI offers to join the last session to discuss the different GRI services and answer your questions live.

Forethix ACADEMY Team remains at your disposal in order to offer you this course as an intra-corporate training and customize the case studies to your sector of activities. This training program remains an excellent vector for an extra-financial reporting process. It is usually provided to CSR Committees and their internal correspondents.

A FEW TESTIMONIALS

“ A training which explains the key sustainable development issues, beyond the GRI methodology. It makes one understand that the approach has to be closely linked with the business strategy and that the stakeholders’ expectations have to be taken into account. Stephanie Deltenre’s key asset is that she is able to explain a content that seems quite complicated so easily, by using case studies and clear examples. To be strongly recommended! ”

“ The GRI training enabled to save a great deal of time when acquiring the methodology, implementing the report and provided me with the main keys to analyze the quality of a CSR/SD report in both style and substance. ”

“ A high-quality training with room for participation and experience exchange. This 2-day training by a passionate trainer enables to acquire the essentials of a CSR approach, real business strategy and to structure the reporting quickly. ”
